EXPERIENCE

CYBER DUDE NETWORKS PVT LTD, | FULLSTACK ENGINEER

Sep 2023 - Feb 2024 | Intern | Chennai, TN

- Completed all assigned tasks ahead of deadlines.
- Gained advanced skills in Tailwind CSS, JavaScript, DOM Manipulation, React.js, and Asynchronous programming.
- Learned backend basics, including CRUD API creation with Node.js. Express.js and MongoDB, Firebase.
- Developed and maintained web applications using the MERN stack, contributing to both front-end and back-end development.
- Used Git and GitHub for version control and collaborated on UI/UX design with Figma and Canva

PROJECTS

1.TASK MANAGEMENT APP | GITHUB LIVE

Apl 2024 - May 2024

- Developed a Full Stack Task Management App using React.js for the front end and Node.js/Express with MongoDB for the back end, enabling users to create, edit, and manage task notes efficiently.
- Implemented user authentication for secure access to personal notes, ensuring data persistence and accessibility across devices.

2.INTERVIEW-WALKINS APP | GITHUB LIVE

Jun 2024 - Jul 2024

- Developed a Scheduled Candidates App using React.js for the front end and Firebase for real-time database management, enabling efficient scheduling of interviews and candidate tracking.
- Implemented user authentication and push notifications through Firebase, enhancing security and ensuring timely updates for users regarding their scheduled interviews.

SECURE VALUE INDIA LTD, | SERVICE ENGINEER

Dec 2021 - Aug 2023 | Karur, TN

- Performed routine service and maintenance on ATM machines to ensure uptime and functionality.
- Managed ATM cash loading, adhering to strict security and operational protocols.
- Troubleshoot and resolved hardware and software issues to minimize machine downtime.
